

BTA 10

Bluetooth® adapter

harman/kardon®
by HARMAN

Specifications

■ Harman Kardon BTA 10

Easily add *Bluetooth*® streaming capability to any product with analog inputs using the Harman Kardon® BTA 10. Featuring HARMAN TrueStream™ for amazingly crisp audio quality, the BTA 10 is fully compatible with *Bluetooth*-equipped devices such as Apple, Android™ and Windows® smartphones and tablets. Compact and elegantly designed, the BTA 10 connects fast and allows you to access music from up to eight separate devices. You'll also enjoy the convenience of having connection cables that plug in to both 3.5mm input jacks and standard RCA left/right connections. Expand your musical capabilities with the BTA 10.

■ Highlights

- Listen to audio content from any compatible *Bluetooth*-equipped product through your home entertainment system
- Memorizes up to eight different *Bluetooth* devices
- Easy to connect and auto-pair with your phone or tablet
- Includes connection cables for virtually any audio product with an analog input – no extra accessories required
- Compact, elegant, space-saving design
