

## JBL PROFESSIONAL

### TRANSDUCER REPLACEMENT LIST EXPLANATIONS

Revised June 1, 2003

This is a listing of replacement transducers to be used when original driver is missing or cannot be repaired.

Replacement transducers fall into the following categories:

1. Exact acoustic replacement.
2. Slightly different (usually improved) replacement.
3. Last Resort
4. Impedance change.

Both units in a stereo pair should be changed when using category 2 and 3 replacements.

Considering the age of transducer to be replaced, category 1 replacements may also require changing both units of stereo pair for best performance.
