

Unless otherwise noted:
 All voltages shown are typical voltages with no signal applied.
 Measurements shown may deviate $\pm 10\%$.
 P - denotes plugs, A - denotes amp connectors, J - denotes jacks.
 Resistors shown are 1/2 watt, K=1,000, meg=1,000,000
 Capacitors values less than 1 in mfd; capacitor values more than 1 in mfd.
 Arrows on controls indicate clockwise rotation.
 DC voltages measured from B - (gnd.) with 20,000 ohm-per-volt meter.
 Line voltage maintained at 120V AC, 60 cycles.

FUNCTION SWITCH "S1" SHOWN POSITION 1.

POS. NO.	S1	S2A	S2B
1.	OFF	ON	OFF
2.	PHONO	ON	ON
3.	TUNER	OFF	ON
